

Guidelines for Poster Presentations

Poster presenters should note that:

- The Conference program includes the time of poster sessions for each day. Authors are responsible for checking the program, setting up and removing their poster at the end of each poster session.
- Authors should bring their posters because they will not be able to print posters at the conference venue.
- Materials such as tapes needed for mounting the poster will be provided onsite.

Poster Board Dimensions

- The poster boards are 2.5m high and 1m wide, so your poster size should not exceed 1.8m high and 0.9 wide.

Poster design

- Ensure your font is legible and make use of visuals where appropriate so that participants can read your poster within a short time.
- The title of paper, names of authors and their affiliations should be included on the top of the poster.
- Please notify the UAPS secretariat at 9apc_science@uaps-uepa.org copying uaps@uaps-uepa.org if you are unable to present your poster so that the program committee can make the required adjustments.
